APPROACH

Our Program is modeled after the 25 year old German mobile advisory centers, where prevention is provided directly to communities in need.

We used this model to create an evidence-based, public health approach to prevention, and brought it to Michigan and Georgia to meet communities where the needs are strongest.

WHAT WE DO

Our mission is to provide tools to communities and local organizations that empower them to recognize, prevent, and combat hate, discrimination, supremacist ideologies, and all forms of polarization and extremism.
